

BioBalance™

Premium Compost Tea Micro-organisms

The Benefits

- All natural/organic ingredients
- Tested for quality assurance
- Will not harm People, Animals or the Environment
- Easy application
- Doesn't contain genetically modified microorganisms, human or plant pathogens
- Ideal for use on turf, gardens, shrubs, flowers, annuals, perennials, vegetables & herbs
- Better color, thicker turf, faster growing and healthier plants
- Added drought resistance
- Greater nutrient retention, less leaching of Nitrogen into the water column
- Improved soil structure, better water & air penetration thus creating humus
- Faster decomposition of toxic materials (pesticides, metals, etc)
- Enhanced soil sustainability by mineralizing previously locked by soil nutrients
- Cost effective organic alternative
