

# **Organic Groundwork's**

## **Microbial Enhancement Program - Trees & Shrubs**

### **A pro-active approach to address microbial needs in soils**

Influence combined with RTU Compost Tea applied through-out the growing season. Add Endo-Ecto mycorrhizae as needed. Use Break-Thru as needed using pesticides.

### **Bio-Organics BEI Endo-Ecto mycorrhizae**

Endo-Ecto mycorrhizae would be applied at the time of planting

### **Organic Approach's Influence & RTU Compost Tea**

Sixteen applications would be sprayed during the growing season, consisting of March, April, May, June, July, August, September, October & November. A total of 11gls of OA Inf. and 6gls of RTU concentrated Compost Tea should be applied per acre for the growing season.

### **Strong Recommendation A Bio Assay**

Mix-rite water driven pump used for applications  
EnviroClean (Equipment wash station)
