**KEEP OUT OF REACH OF CHILDREN**  
**CAUTION- PRECAUTION**

## MIXING AND APPLICATION INSTRUCTIONS

### SHAKE WELL BEFORE USING.

CONSTANT TANK AGITATION IS REQUIRED TO INSURE A HOMOGENOUS SPRAY MIXTURE. Apply spray solution in properly maintained and calibrated equipment capable of delivering the desired volumes.

This product mixes readily with water. To prepare the spray mixture, fill the mix or spray tank with three-fourths of the required amount of water then add the proper amount of PROUD 3®. Complete filling the mix or spray tank with the balance of water needed. Mix well. Determine compatibility by performing a jar test using appropriate quantities of each material and water. Coverage is very important. The more complete the coverage (the application of the spray solution is on both sides of the foliage), the better the product will perform. For best results, apply in early morning or late in the afternoon. Do not apply in rainy or windy conditions or on water stressed plants.

### Conditions of sale:

The information contained on this label is believed to be accurate and reliable. Buyer and user acknowledge and assume all liability resulting from the use of this material. Follow directions carefully. Timing, method of application, weather, crop conditions and other factors are beyond the control of the seller.

CAUTION: KEEP OUT OF REACH OF CHILDREN

## GENERAL INFORMATION

**PROUD 3®** is a broad spectrum, contact and local systemic activity insecticide, miticide, and fungicide. It controls pests such as aphids, thrips, whiteflies, mites and leafhoppers, and diseases such as Botrytis Gray Mold (strawberries), Powdery Mildew (grapes), and Phytophthora Late Blight (tomatoes).

**PROUD 3®** has limited residual control. Repeat treatments will be necessary if problem persists.

**Preharvest Interval:** **PROUD 3®** may be applied at any time up to and including the day of harvest.

## APPLICATION METHODS AND RATES

- Use volume of water necessary for uniform and complete spray coverage of foliage without running off.
- Use lower rates for light to moderate infestations and higher rates for heavy infestations.
- Repeat application as often as required to maintain the desired level of control.
- **PROUD 3®** can be used with most chemical pesticides as a tank mix or in rotation programs.

## APPLICATION RATES

Rate of PROUD 3® and Water Volume per 1,000 sq.ft.	
PROUD 3®	Water
0.4 - 0.8 fl.oz.	0.5 - 1 gallons
0.8 - 1.6 fl.oz.	1 - 1.5 gallons
1.6 - 3.2 fl.oz.	1.5 - 2.5 gallons
3.2 - 6.4 fl.oz.	2.5 - 5 gallons

Rate of PROUD 3® and Water Volume per Acre	
PROUD 3®	Water
1 pt. - 1 qt.	15 - 25 gallons
1 - 2 qts.	25 - 50 gallons
2 - 4 qts.	50 - 100 gallons
4 - 8 qts.	100-200 gallons
